

Artists were always at the heart of and/or.

This list includes artists who were associated with and/or from 1974-1984 – visual artists, composers, video-makers, performers, writers, sculptors, filmmakers, photographers, curators, playwrights, performance artists, poets, and more. For some, the connections was directly with and/or, for others, the connection was with one of the programs operating under and/or’s auspices – Focal Point, Nine One One, Soundwork, COCA, *Spar*, or our artists’ grant program. Many were at and/or in person, some were represented through their work alone.

This continues to be a work-in-progress. If you have additions or corrections, please [contact us](#).
